

## **The Way I See It**

### **September 1, 2017**

I would like to thank everyone for pulling together on Saturday to help me out. Without your help a resident wouldn't have been able to attend a family picnic. It is greatly appreciated. A big shout out to my co-workers on **Unit A: Sylia, Mindy, Marlene, Grace, Amber, Melissa, Jenny, Cheyenne, and Lori.** To my co-workers on **Unit B: Becca, Chantel, Alvina, Tawny, Terri, Chloe, Cheline, DeVany and Sandy.** You were all champs. (Submitted by Lori Martin)  
Sara Balfour

Thank you to **PAM STEWART** for taking the office printer to Fireside for repairs and also picking up new computers from Shawn. This really helped us out! (Sandy T) Sandra Teubner, CHFP

When the cards are down **Lori Martin and Sylvia Hager** pulled together to transport a resident even though they have never transported a resident before in the handicap van; they worked together and figured it out. The resident got to enjoy the day w/ family and the family is very thankful. Kudos to you both for making a resident top priority. (Submitted by Sara Balfour)

I want our **daycare crew** to know how much they are appreciated! They did so many fun activities with the kids this summer...going to the armory, all the parks, tastee freeze etc. They really went the extra mile to keep those kids busy and entertained during those summer days. Thanks so much for all you do for our little ones! Jessica Hanson, CRCR

I would like to take this opportunity to thank all the staff for their support at the time of Sr. Margaret Rose death. It was a big surprise to me and others that she went so fast, but knowing her so well, that is the way she wanted it. On Monday evening after the board meeting she came to the house along with Sr. E. Rose, and the four of us visited for about an hour before going to our room, to get ready for bed. Thank you once again for your support this past week; you are all great to work with. Sister Mary Agnes

I would like to thank **Sister Mary Agnes** for providing her knowledge to one administrator, one Director of Nursing, and one Assistant Director of Nursing on how to start a car! It goes to show you that you can learn something every day! Mike Z.

Thank you **Gary Kennedy and Lynette Bender** for so graciously helping me out to deliver lunch for a meeting I held with our community this week... I know it interrupted your day a bit and I appreciate you both. Candie Thompson DON

I want to thank **Marian Hase** for helping me with a RMHC Excel spreadsheet – once again, she amazed me with her speedy efficiency! Thanks, Marian! Donna Corneliussen, LSW

Thank you to **Jackie** and **Gary** for assisting with the set-up of my printer. Much appreciated!!  
Mike Z.

Super job to all of the staff for a great ltc survey this week! I know there were some deficiencies but they are easily addressable. You are all a super TEAM and I am honored to be a part of it  
(Sandy Teubner)

Thank you to everyone who helped pull items together and answer questions for the Cost Report Audit the week of Aug 21st. Every year they do a desk audit and ask for a few things, but when they come onsite they go over more files. Thanks to **Lorie Sieg, Pam Held, Pam Stewart, Christy Arends, Karen Bienek and Nancy Meland**. All of your work and organization helped it go smoothly. (Sandy T) Sandra Teubner, CHFP

I want to say THANK YOU to everyone involved with our latest DOH state survey. I am so proud of all our employees and the teamwork and professionalism that was demonstrated to the surveyors. Mike Z.
