

## **The Way I See It**

### **September 15, 2017**

I would like to thank Sherri Filler for coming to Long Term Care to help with a sterile procedure. It is a blessing that our nurses are willing to collaborate for patient safety! Teesha Kaehler, RN

I want to recognize **JACKIE MARTIN** for jumping up to grab some towels from the kitchen to assist a gal in the cafeteria who had spilled her water all over the table as she was getting up. Jackie was very nice and reassuring to the person and said “don’t worry about it, not a problem, etc”. I don’t recall if it was an employee or visitor – but always awkward when an accident happens but very kind of Jackie to assist her! (Sandy Teubner).

Thank you **Sarah Gregg** for being a great steward and taking charge of our new adventure on becoming an accredited entity for diabetes management ☐ !!! You are “owning” this responsibility and showing great enthusiasm ☐

Thank you to all staff who has helped cover Jill’s shifts due to an unfortunate “accident” with breaking her wrist... **Melanie Long, Evony Hanson, Melissa Vollmer, Yolanda Gray, Sarah Gregg, Lanae Strand, Pam Marsh, Marjorie Kleinsasser, Courtney Lutt, Linda Uhlich...** it certainly takes a village to keep our schedule filled ☐ Thank you all again ☐

Thank you **Eleanor Sieglock, Marjorie Kleinsasser, Deb McAvoy, Kim Thorson, and Mary Prouty** for pulling our “skills labs” together for our nursing staff...not a small task. ☐

Thank you **Eleanore Dossenko** for your many years of service. **Eleanore** has been somewhat of a pillar on med/srg and I, for one, will miss her visits but am grateful that she will be staying on with St Aloisius as a casual employee.

Thank you **MaryBeth** for continuing your diligence on our Meaningful Use requirements... It is a lot of investigating and she does very well ☐ Candie Thompson DON

I saw Danita Rixen leave her desk to hold open doors for a patient on crutches she saw nearing the hospital entrance. Thanks, Danita, for your helpful, serving attitude. Donna Corneliusen, LSW

Thank you to **Sandy Teubner** for all her hard work, effort and time she put into developing our 2018 budget. This is a very daunting and time consuming project and I appreciate all of her hard work and dedication. Mike Z.

I just wanted to recognize our staff, dental staff and district health staff who have adjusted to parking across the street to keep the outpatient building parking lot open for clients and patients. This week was a busy week with clients seeing the Hearing Aid staff, WIC clients and immunizations and it was so nice to see open parking available for them. I know it's a small thing, but a nice consideration to our population we serve, especially the elderly. (Sandy Teubner)

Thank you to **Sarah Gregg** for writing a grant to receive potential grant dollars for the diabetic education training. Every extra dollar helps when you have limited resources in healthcare. (Sandy Teubner)
